SOUTH PERTH - Walk and Cycle Information

How do you get around?
 More people are choosing to walk, cycle and use public transport. This guide will help you to get to know your local neighbourhood on foot, by bike or using public transport.
 We encourage you to look closely at what's nearby and take the time to explore what our city has to offer.
 Perhaps test out a bike path, get your friend together to kick the footy, or walk your dog down to the shops. Whatever you do, it's **Your Move**.

How do I use this map?
 There are two sides to this map: one with walking and cycling information, the other with public transport routes. Both sides feature a wide range of handy services and amenities.
 We encourage you to follow the steps below that have already helped thousands make the most of these maps.

1. Mark where you live.
2. Mark where you frequently visit, like the shops, friends' homes and the train station.
3. See if you can get to these places by walking, riding your bike or catching a bus. If you can, highlight the routes for quick access when you're out and about.

To make even more use of this map, try the following:

- Look for places you never knew were there, like parks and community centres.
- Each time you're looking for ways to get active, consider visiting somewhere new. You might just find something or meet someone that makes your day.

Walking and Riding
 Walking and riding are great ways to fit physical activity into your everyday life. Think about how you travel to work or the local trips that you make such as going to the shops, dropping the kids at school or visiting friends. Which of these can you do by walking or riding?

This map identifies a range of bicycle friendly routes, including quiet streets, on-road bicycle lanes, shared paths and dedicated cycle ways. Cyclists are allowed on footpaths but are encouraged to ride slowly. Pedestrians have priority on all paths and bicycle riders must give way. Remember to ring your bell to warn others when you are approaching or overtaking.
 The City of South Perth is committed to creating a cycle friendly city through the provision of a strategic cycle network and supporting infrastructure. This map will continue to be updated as new infrastructure is delivered.

To support the growing number of people riding bikes, plenty of bike racks have been installed in our city. Keep an eye out for the bike parking symbol on the map. If you come across a location in the city that needs bike parking, please contact the City of South Perth.

For information on more great Perth walks and for further cycling information including bike maps and upcoming community events go to: www.yourmove.org.au

Catching the Bus or Train
 On the public transport side of the map, the thick coloured lines represent bus routes. Bus stops are shown as coloured squares along the route. Follow where the bus goes by tracking the thick coloured lines.

You can plan your journey online (visit www.transperth.wa.gov.au), by phone (ring the Transperth Info line 13 62 13) or by using the official Transperth app for iOS and Android.

To find out when buses depart from your local stop locate the five digit bus stop number at the top of your bus stop in the green panel. Once you know this number you can find out when your next service is due by texting the five digit stop number to 13 62 13 (Telstra, Optus and Virgin customers) or 0429 33 22 11.

All buses on accessible routes are low-floor and have ramps for prams, wheelchairs and strollers. Accessible bus route numbers are in blue and pink boxes on the map and are marked as accessible in the legend.

For more tips on catching the bus or train, go to: www.yourmove.org.au

We hope you enjoy exploring what the City of South Perth has to offer.
