SmartRider Data Consent Form

Thank you for taking part in Your Move.

We hope you have enjoyed the program and you continue to enjoy using public transport, walking or riding to work.

Now that Your Move is over, we need your help to confirm if the program has been successful.

We know over 1000 people participated and made use of the free tools and resources including the free SmartRider travel, personalised journey planning and support. However, we don't know if the program has increased public transport usage.

To confirm this, it would greatly assist us to look at the data from the SmartRider cards issued to participants during the program as a general group to gauge the program's success. If you consent to this, we would like to access limited data from your individual SmartRider card, looking at the general number of trips and additional value added to the cards as a whole group. If you do not consent, your SmartRider data will simply not be added to the general group data.

Rest assured we will not analyse your individual data and we will not use or store your data in any personally identifiable way.

If you don't mind us incorporating your data to see how successful the program has been, please sign below and email a photo of your signed form to yourmove@transport.wa.gov.au

I hereby consent to the Department of Transport using my SmartRider data as outlined in this consent form (please sign here):

_____

Name (please print your full name here):

_____

SmartRider Card Number (please record your SmartRider card number here):

_____

We hope you enjoyed the program and continue to find better ways to get around.

Yours sincerely
The Your Move Team
